

PIONEER GEN II

PN2-II

The Pioneer, with its microprocessor-based system, features a high quality stand-alone controller providing all the necessary hardware for field configurable continuous monitoring of a combination of two toxic and/or combustible gases.

Environmental
Controls & Systems

FEATURES

- Bluetooth enabled PionSet app for programming of sensors, activation sequence, operation and calibration
- Out-of-the-box unit can be configured to:
 - CO/NO2 monitoring
 - CO only
 - NO2 only
 - CO integral and remote toxic/combustible monitoring
 - NO2 integral and remote toxic/combustible monitoring
- Independently configured and operated relays and analog outputs
- Integral power supply
- “Plug-and-play” or field configurable through app
- Low maintenance
- Highly accurate, gas specific and temperature and R/H compensated sensing elements
- Standard NEMA 3 enclosure, also available in NEMA 4X
- Audio/Visual alarm

APPLICATIONS

- Energy savings through the intermittent operation of ventilation equipment in enclosed facilities.
- Suitable for garages, tunnels, boiler rooms, warehouses and other enclosed commercial locations where a hazardous build-up of gases may occur.
- Ideal for the retrofit of existing buildings to improve safety and conserve energy.

Pioneer Gen II (PN2-II) Specifications

GASES DETECTED: Integral: CO, NO2
 Remote: CO, NO2, O2, H2, CL2, CH4, C3H8, NH3, H2S
 Please call us for complete list

SENSOR TECHNOLOGY: Electrochemical or Catalytic Bead, NDIR

SENSING METHOD: Diffusion type

ACCURACY: +/- 1% of calibrated reading

POWER REQUIREMENTS: 120-240 VAC
 Optional: 24 V AC/DC

OUTPUTS: Up to 2 SPST relays
 Contact Rating: 15 A /250 V AC
 Up to 2 analog outputs
 0-2 V, 0-4 V 0-5 V

AUDIO ALARM: 85dB

OPERATING TEMPERATURE: -4°F to 104°F (-20°C to +40°C)*

HUMIDITY RANGE: 0-95% RH Non-condensing

EXPECTED SENSOR LIFETIME: Electrochemical CO: 7 years
 Electrochemical other: 2 years
 Catalytic Bead: 3 years
 NDIR: 10 years

ENCLOSURE: Tested NEMA 3 standards**

CALIBRATION: Yearly

APPROVALS: ETL listed
 Conforms to ANSI/UL 61010:2004
 Certified to CAN/CSA 22.2 No. 61010-1:2004

* Extended temperature ranges available

** Additional enclosure types available

The information provided by this bulletin is a general description of ACME UNITS. All specifications are subject to change without notice. Installation, maintenance and other instructions provided with the equipment shall be closely followed by installers, owners and users.

Ordering Information

MODEL NUMBER	GAS COMBINATIONS
PN2-II-120 (24 or 240)	Integral
	CO
	NO2
	CO/NO2
LT	Remote
	CO, NO2, O2, H2, CL2, CH4, C3H8, NH3, H2S
	Please call us for complete list
N4X	Low Temperature
	Nema 4x housing

For combinations of gases or other gases available, please contact the factory for more information.
